OUR
PREMIUM PRODUCT

SPRINTER®

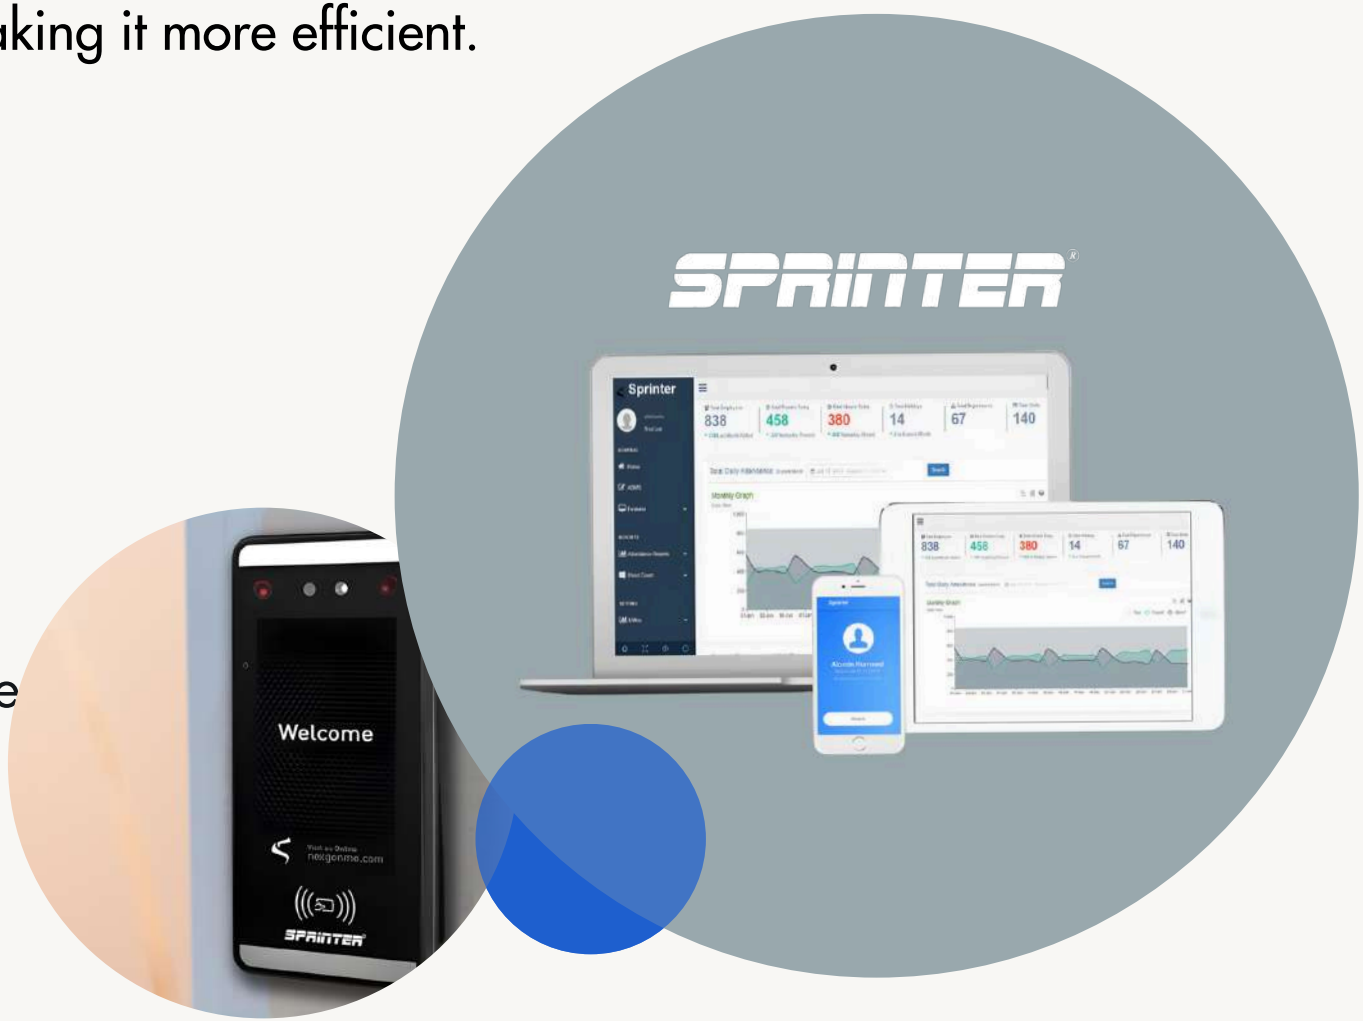

Our Sprinter Devices are seamlessly integrated into a range of software solutions, encompassing Time and Attendance, Canteen Management, and Camp Management, among others. These adaptable devices excel in performance, effectively handling tasks of various complexities. To uphold the highest standards for our clientele, we rigorously assess Sprinter Devices against industry benchmarks to ensure their operational superiority.

SPRINTER SOFTWARE SOLUTIONS

Our Sprinter products and services offer the top-of-the-line complete suite in the industry for all your HR and Employee Management needs. We have the capability to integrate with any third-party service to meet your specific requirements. Sprinter streamlines your business operations by removing manual processes, making it more efficient.

- Time & Attendance System
- Visitor Management System
- Canteen Management System
- Camp Management System
- HRMS & Employee Self Service
- Cloud Hosting Service
- Integration with 3rd Party Softwares

TIME & ATTENDANCE MANAGEMENT SYSTEM

Our time and attendance management system operates by meticulously monitoring and documenting employees' work start and end times, along with any instances of absence or tardiness. This data serves as the basis for computing employee wages, monitoring overtime and additional remuneration, and guaranteeing adherence to labor laws and regulations.

- User & Employee Management
- Live Employee & Device Monitoring
- Department & Shift Management
- Absent & Leave Management
- Business Analytics and Reports
- User Groups and Permissions
- Bulk Transactions Support
- Mobile App Support

VISITOR MANAGEMENT SYSTEM

Our Visitor Management System involves regulating visitor traffic by overseeing processes like registration, identification, and entry enforcement to enhance security, legal compliance, and orderliness in facilities.

- Access Card Management
- Data & Time Management
- Notification System
- Reports (via Email or SMS)
- Multiple Locations Management Support

CANTEEN MANAGEMENT SYSTEM

Our Canteen management focuses on the organization and administration of a workplace or institutional cafeteria, including the procurement and distribution of food and drinks, setting prices, controlling inventory, and maintaining food safety and hygiene standards. Our system provides accountability for users in a convenient and efficient manner.

- Different Types of Meal Management
- Number of Employees who availed the meal
- Bill Calculation for Employee & Vendor wise
- Customizable Reports
- Interactive Dashboards
- Definition of Rules as per Company Policy
- Biometric Device for Meal Claiming w/ Receipt Printer

CAMP MANAGEMENT SYSTEM

Our Camp management system oversees planning, organizing, and running temporary settlements in remote or outdoor areas. It involves setting up living and work spaces, managing resources, providing services, and ensuring residents' well-being. The system requires expertise in logistics, resource allocation, emergency response, and effective communication with stakeholders.

- Camp Management
- Camp Category Management
- Staff Management
- User Management
- Surveys & Complaints Forms
- Alerts & Notifications System
- Reports and Analytics

HUMAN RESOURCE MANAGEMENT SYSTEM

The aim of our HRMS is to back the organization's overarching goals by attracting, nurturing, and retaining a skilled and driven workforce. Our HRMS focuses on harmonizing the organization's needs and objectives with the career aspirations and requirements of its employees. This approach can foster a positive and efficient workplace while enhancing the organization's overall performance.

- Employee Management
- Attendance Management
- Leave Management
- Document Management
- Hiring/Recruitment
- Appraisals/Performance
- Employee Evaluations

EMPLOYEE SELF-SERVICE

The Employee Self-Service (ESS) Portal allows employees to manage personal and job-related details independently. It enables tasks like updating information, viewing pay stubs, requesting leave, and accessing company policies, streamlining HR processes for employees and HR staff.

- Employee Login
- Employee Self-Attendance Report
- Employee Leave Balance
- Certificate & Documents Request
- Discrepancy Request
- Employee Leave Request
- Approval Workflows
- Other Requests

CLOUD HOSTING SERVICE

Our Sprinter Cloud offers a range of cloud hosting services including managed, dedicated, and hybrid solutions with a focus on exceptional customer service. Our fully managed hosting includes server maintenance, security, backup, and recovery. Security features like firewalls and encryption are provided to keep data safe.

Cloud Infrastructure

We provide a reliable and scalable platform for businesses to deploy applications and services. Our infrastructure ensures high availability and fast performance for demanding workloads. Businesses can leverage the latest technologies without hardware maintenance. The platform is flexible and customizable to suit specific needs.

Cloud Migration

Sprinter provides migration services from on-premise servers to cloud-based servers. Experts assess existing infrastructure, recommend cloud solutions, and support customers throughout the migration process, minimizing downtime and data loss.

INTEGRATION WITH THIRD PARTY SOFTWARES

Our Products utilize various integration modules.

Business Process Integration:
Sprinter can integrate to link and streamline various business processes, such as sales, marketing, and customer service, to improve efficiency, reduce costs, and increase customer satisfaction

Data Integration:
Sprinter can integrate to collect and combine data from various sources, such as sales, marketing, and customer service, to gain a more comprehensive understanding of their customers and market trends.

System Integration:
Sprinter can integrate to connect and link different systems and software, such as accounting, inventory management, and customer relationship management, to streamline processes and improve communication.

CCTV SYSTEMS

Our cutting-edge security and surveillance system is the ultimate solution to keep your property safe and secure. With the official certification from SIRA (Security Industry Regulatory Agency), you can trust that our system meets the highest standards of quality and reliability.

- Installation and Maintenance
- Video Guard System
- Video Management System
- Video Wall System
- ANPR System
- SSD & SVG Drawings
- SIRA Inspections & Approvals

ACESS CONTROL SYSTEMS

We offer advanced access control systems as an authorized CDVI UK distributor in the Middle East, providing high-level security and precise access control solutions to meet diverse client needs reliably.

- Standalone System
- Controller Based System
- Turnstiles Installation
- Long Range System

PARKING MANAGEMENT SYSTEM

Our Parking System provides modular features like lot booking, license plate recognition, ticketing station interface, and gate barriers. We deliver industry-standard products with efficiency, security, and data-driven insights.

- Gate Barriers Installation and Maintenance
- Boom Barriers Installation and Maintenance
- Manual Ticketing System
- Automated Ticketing System

INTRUDER ALARM SYSTEM

Our state-of-the-art intrusion alarm technologies are designed to keep your home or business safe at all times. Our user-friendly interface makes navigating the security system effortless and convenient for you. With our system in place, you can have peace of mind knowing that your property is well-protected and secure.

- Installation and Maintenance
- Supermarket & Hypermarket Security Solutions
- Warehouse & Factory Solution
- Retail Shops Solution

AUDIO/VIDEO INTERCOM SYSTEM

Our Audio/Video Intercom systems offer advanced security features integrated with door locks. Tailored solutions are provided to meet individual needs, featuring live displays and user-friendly interfaces for enhanced security and usability.

- Installation and Maintenance
- Residential/Commercial Intercom Solutions
- Villa Intercom Solutions
- Office Intercom Solutions

SMATV SYSTEM

We offer an extensive range of SMATV services that encompass design, supply, installation, and maintenance. Customized to suit the individual requirements of our clients, our services grant access to a diverse selection of satellite TV channels and personalized content choices.

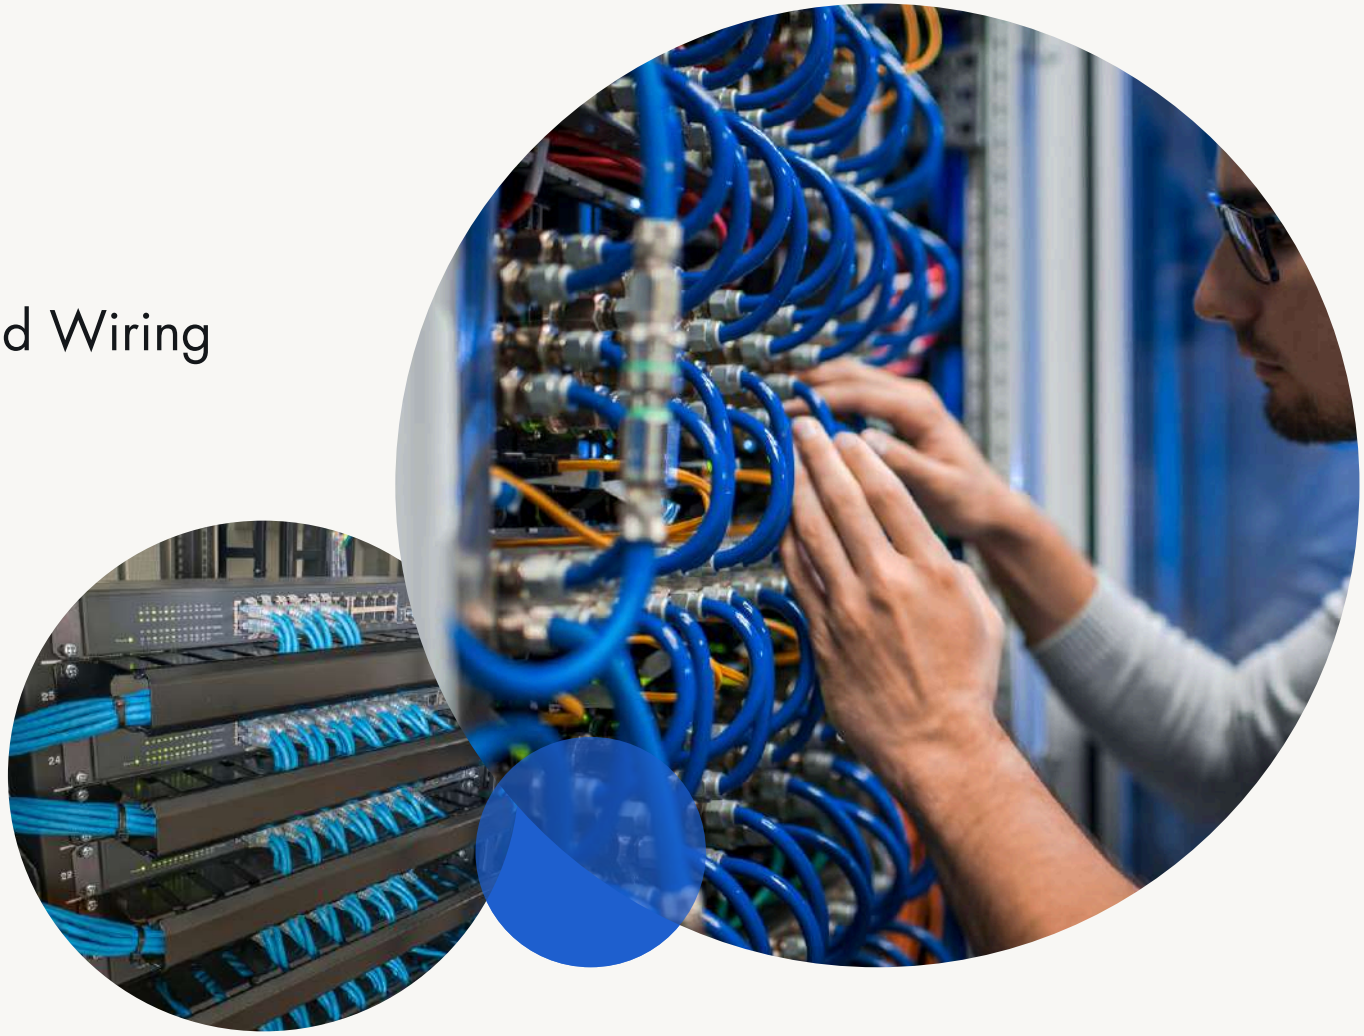

- Installation and Maintenance
- Reception/Distribution of signals for multiple residential units (MATV/SMATV)
- Solutions for IPTV

STRUCTURED CABLING SYSTEM

We provide high-quality Structured Cabling systems tailored for various scales of infrastructures. Our customer-centric services are complemented by products that meet industry standards.

- Structured Network Cabling and Wiring
- Copper Cable Installation
- Fiber Optics Cable Installation
- Voice and Data Cabling

PABX TELEPHONE SYSTEM

Our services enhance connectivity, collaboration, and customer experiences through advanced voice features, integrated messaging, and versatile conferencing, transforming communication practices.

- IP PABX Installation and Maintenance
- Integration with current Infrastructure
- Configuration and Customization

PUBLIC ADDRESS/BGM SYSTEM

We provide high-quality audio and music solutions tailored to meet your specific requirements. Our goal is to deliver a personalized solution that aligns perfectly with your needs, guaranteeing an exceptional experience for you.

- Background Music System for Offices
- Seamless Integration between PA System and BGM Solution
- Background Music for Retail & Commercial Spaces

ICT & IT INFRASTRUCTURE SOLUTIONS

Our array of services encompasses hardware and software solutions, network management, IT consultancy, and additional related offerings. We equip your business with cutting-edge technology to augment growth and operational efficiency.

- Server and Storage Solutions
- Firewall and Switching Solutions
- Digital Solutions
- Video Wall Solutions
- Intercom
- Contact Center Solution

CYBER/CLOUD SECURITY SOLUTIONS

Our cybersecurity solutions protect networks, systems, and data from cyber threats, while Cloud Security secures cloud-based assets. The combination ensures a secure digital environment for your businesses.

- EDR
- Email Security
- Backup Solutions
- Microsoft Office 365
- MS-Tunes
- ZTNA
- PAM Solution
- Remote Access
- VMPT

ELECTRONIC ARTICLE SURVEILLANCE

Our system aims to assist retailers in enhancing sales and safeguarding profits through expanding open merchandising possibilities and decreasing theft incidents. The system is intricately developed to offer exceptional detection and deactivation features, durability, and user-friendly functionality.

- Concealed EAS System
- Video Surveillance System
- Electro-Magnetic System
- AM (Acoustic-Magnetic System)
- Microwave
- RFID (Radio Frequency 8.2 MHz)
